

SAFE ECLIPSE

WE ARE IN A HIGH WILDFIRE RISK SEASON.

Look out for everyone's safety. Not a single fire in the forest.

If you are going to a beach, a viewpoint, or anywhere near a wooded area to watch the eclipse:

Do not light fires or use any source of heat.

Do not discard cigarette butts, fireworks, or anything that could spark.

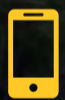

Do not leave any litter behind in nature.

Stick strictly to authorized access routes.

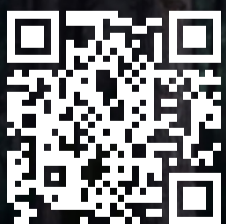

If you can see it from your home or holiday accommodation, **AVOID unnecessary travel.**

If you see smoke or spot any sign of fire, call 112.
